BINGO CLUB

Bingo is one of the most popular number games. Thanks to its simple rules, it is loved by millions of players around the world!

SIT is one of the few companies worldwide that has the most experience related to Bingo multiplayer solutions. For more than 15 years, we are creating the most precise and attractive customer-tailored Bingo platforms.

GAME FEATURES

Online and offline

"Bingo Club" can be played both on-site in a bingo hall and online. The visualization of Bingo Club" desktop version can be on TV and on mobile devices .

Tickets purchase

Tickets can be purchased both in cash at the venue and online via a mobile device.

Tickets can be printed via normal thermal printer using a QR code at the bottom of the receipt. After scanning the QR code, the player can track his tickets on a mobile device.

Winnings

1 line, 2 lines and Bingo winnings are calculated as a percent of the profits or they can be set as a fixed amount.
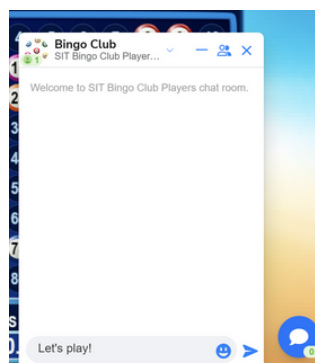

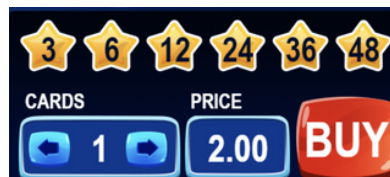

When 1 or 2 lines are won, the game stops automatically. The winning ticket numbers are announced and the drawing continues.

Extra features

"Bingo Club" offers various types of jackpots.

Game tournaments can also be organized.

A social element is included in the game via integrated chat function.
